

Hotels Across Peru

We will stay at a variety of hotels along our route. During the 17 nights of our tour there are 12 hotels that are modern by United States standards with hot water showers and bathrooms in every room. Of the remaining five nights, the hotels are more basic with bathrooms down the hall and limited hot water showers. Our most basic accommodation is the

night we stay in the Pampamarca Civic Building. The building has bunk beds and some other rooms with cots. The building is located at 14,000 feet without heat. We need to bring our own blankets. We have stayed in Pampamarca several times and this night is always one of the favorite locations of the tour.

Some hotels have pools

Jungle cottages in Quince Mil

The WASSI Lodge in Puerto Maldonado

Extra blankets in Pampamarca
